

## **A Sample of Thanks for MROO donations**

MROO's donation to Ottawa Inner City Health supported the purchase of Personal Protective Equipment for the health care workers in a self-isolating unit for the homeless. The unit was set up because the homeless leave the shelters and roam in the community. The shelters do not readmit them till they have isolated for 14 days.

" I would like to thank MROO for the donation.... Your generous financial support allows us to purchase the resources that we badly need to assist our clients and staff as much as possible during this difficult time.... Our staff and our clients send their appreciation and warmest wishes...

Wendy Muckle, Executive Director, Ottawa Inner City Health"

MROO's donation to the Eastern Ottawa Resource Centre helped to offset some of the cost of launching an on-line chat platform for women in abusive relationships who might have been at greater risk during the "stay at home" period.

"...Due to COVID-19 and the increase in isolation, we feared the consequences when the system saw a decrease in calls to crisis lines, to shelters for abused women, and to the Ottawa Police Services.

The Ottawa Coalition to end Violence & Woman with Crime Prevention Ottawa, partnered with Interval House of Ottawa, Ottawa Victim Services and EORC to launch [unsafeathomeottawa.ca](https://unsafeathomeottawa.ca) ... a secure bilingual text and online chat service for women who may be living through increased violence and abuse at home during this pandemic. Our counsellors provide emotional support, practical advice and referrals."
